

Cocktail Social Club (CSC) is an immersive cocktail experience that brings the history, craftsmanship, and culture of classic cocktails to life. More than just a tasting event, CSC combines storytelling, education, and hands-on exploration to take guests on a journey through the defining eras of cocktail history.

Each experience explores a different chapter of the cocktail world — from the birth of America's first mixed drinks and the golden age of bartending, to the underground creativity of Prohibition, the escapism of tiki culture, and the modern revival of craft cocktails. Guests discover the stories behind iconic drinks, the spirits and ingredients that shaped them, and the techniques that transformed bartending into an art form.

Through guided tastings, live cocktail demonstrations, historical storytelling, and social connection, Cocktail Social Club creates an atmosphere where guests can learn, taste, and experience the evolution of the cocktail.

Where history meets the bar — celebrating the people, places, and drinks that shaped the world of cocktails.
